

Fees and Deadlines List

The **Student Health Fee** is the operational funding for all campus health programs, both clinical operations (medical care, mental health services, immunizations, sexual assault survivor support, prevention education, maintaining medical records, and 24/7 phone coverage—**213-740-9355 (WELL)**—to connect to these services) and programs related to public health: Covid-19 screening, testing, public health notification and contact tracing; consent and healthy relationships programs; substance use prevention and education; mental health outreaches during crisis, and more.

Patients are encouraged to be proactive users of prevention and primary care services; and to contact Student Health for urgent medical or confidential mental health services. Parents, faculty, and campus partners are encouraged to engage with USC Student Health, studenthealth@usc.edu, as a resource to support optimal student health and well-being in their respective home and teaching environments.

For fall/spring semesters, the fee is required for all students enrolled in 6 units or more, all international students, and all students in degree programs at the Health Sciences Campus. For summer programs, the fee is applied to all students enrolled in summer courses.

All matriculated non-registered students are eligible to opt-in to pay the summer Student Health Fee. This includes:

- Continuing students
- May graduating students of the current/ending academic year
- Fall admitted students for the upcoming academic year

Students who would like to continue accessing services (primary care visits, illness/injury visits, immunizations, mental health visits, group therapy, workshops) through USC Student Health over the summer may opt-in for the summer health fee for either one or both summer session periods.

There are some additional costs described below. If you have any questions regarding cost and services, please contact studenthealth@usc.edu.

<i>*Dental insurance for health award recipients are billed in two increments \$ 72.00 Fall and \$ 120.00 Spring/Summer.</i>
NOTES:
International travel programs insurance rates are individually quoted by the Insurance Office.
Vision care is included withn the SHIP/Aetna plan for full term insureds (EyeMed VisionCare).
Spring charges for SHIP/Aetna are typically higher than fall, as the coverage period is longer (Fall is August - January, Spring is January through August).
Students who are on an approved leave of absence may continue to participate in the Student Health Insurance Plan (SHIP), but do not have access to USC Student Health Services through participation in the Student Health Fee (SHF). Rates for SHIP for students on LOA will shift to similar costs for ONLINE degree program students, as access to primary health care is not automatically included for these populations.

Deadline for Insurance Coverage Decision:

If you are a full-time/international/health professions student, you are automatically enrolled in the SHIP/Aetna Plan. The charges will appear on your semesterly bill. If you opt to bring a different plan to campus, you must apply for a waiver by the dates listed below.

- Fall 2025 Semester: **Sept. 12, 2025**
